

DISCOVER BELIZE

Nestled along the Gulf Coast of Central America, Belize is a vibrant, English and Spanish speaking country known for its welcoming spirit and political stability. Home to approximately 410,000 residents, Belize features the longest barrier reef in the Western Hemisphere, offering world class opportunities for fishing, snorkeling, and scuba diving. Our mission partners with communities in Northern Belize, a predominantly rural, agricultural region where access to healthcare remains limited. Through this mission trip, we aim to bring support, care, and connection to those in need.
